

Workshop programme

ILO-net

- Break out into 4 groups
- Each group is assigned a moderator (Gerard, Jan, Hans, Eric)
- Each group selects a representative (chair) to present work results of the group
- Representative and moderator prepare the presentation (1 flip over sheet)
- Discussion in groups on subjects derived issues proposed by speakers

Subjects and framework for workshops

ILO-net

Based on the material of the speakers we identified the following subjects

1. How to engage researchers motivated by fundamental science with societal actors (e.g. industry, NGO's, etc.)?
2. Which challenges do you see in the current Big Science market for SME's?
3. How Big Science projects must adapt to new scenario's in the way they approach markets; how to facilitate long term cooperation.
4. How to facilitate, finance, support the innovation chain (government perspective)?
5. Additions?

Special context to consider:
The small country perspective

Implementation lines to consider:

KP9

Government policy

BSBF

Groups

1. On your badge you will find a little symbol; This determines to which group you are assigned
2. The symbol has been chosen by one of the moderators (e.g. the clubs symbol is for my group).
3. Each group will discuss at least two of the subjects mentioned on the previous sheet, according to the scheme below

Assignment

Group Gerard: subjects 1 + 4

Group Jan: subjects 2 + 3

Group Hans: subjects 1 + 3

Group Eric: Subjects 2 + 4

- 1 hour discussion in small groups
- Moderator and chair take 10 minutes to prepare plenary presentation
- Plenary presentation 7 minutes max!!

Find your moderator

1. How to engage researchers motivated by fundamental science with societal actors (e.g. industry, NGO's, etc.)?
2. Which challenges do you see in the current Big Science market for SME's?
3. How Big Science projects must adapt to new scenario's in the way they approach markets; how to facilitate long term cooperation.
4. How to facilitate, finance, support the innovation chain (government perspective)?

Assignment

Group Gerard: subjects 1 + 4

Group Jan: subjects 2 + 3

Group Hans: subjects 1 + 3

Group Eric: Subjects 2 + 4
